Hi Kathy,

I will be traveling to SETAC Europe tomorrow and would appreciate inclusion of those on this cc list to receive the 17 β -trenbolone data. We look forward to receiving the data no later than tomorrow, 9 May so the regulatory commitment to CVM may be addressed in a timely manner.

Thanks again for your time and assistance.

Kind regards,

Lisa

Lisa,

I am sure that Kathy would be able to assemble these data and share them with you within the next few days. How soon would you require the information?

Gary

Subject: 17 β -trenbolone data

Dear Gary,

Regarding the publication entitled 'Effects of the Androgenic Growth Promoter 17 β -trenbolone on fecundity and reproductive endocrinology of the fathead minnow', Ankley *et.al*, 2003; CVM has requested EC₅, EC₁₀ and EC₅₀ values associated with 17 β -trenbolone effects on fecundity from Zoetis in support of the Synovex LA filing. In order to fulfill this request in a timely manner, would you please arrange for the raw data for this endpoint to be provided. An excel spreadsheet or in Word tabular form would be fine.

I hope all is well and spring has arrived in Duluth!

Thanks for your time and consideration.

Kind regards,

Lisa A. Constantine
